Vehicle Safety Tips

Please don't make yourself a Victim

- Lock your car and carry your keys with you. Don't keep an extra key "hidden" anywhere on the car, thieves know where to look.
- When away from the car keep all valuables in your trunk, not in view.
- If your car's cigarette lighter is visible from the outside of the car, keep the cigarette lighter in it. If a criminal looks into your vehicle and sees a missing cigarette lighter they may think that you use some type of power adapter such as a GPS unit or cell phone.
- Suction cup marks on your dash or window provide clues to thieves that you may have a GPS unit or other valuable device in your vehicle.
- Remember to also hide your garage door opener, leaving it visible may provide the criminal with an opportunity to gain access to your home.
- Please report suspicious vehicles and/or persons in your neighborhood immediately, please don't wait until the next day.
- Look for any 'No Parking' signs in front and behind your car when you park.
- NEVER leave your pet(s) unattended in your car, even for a short time.

Thanks for being a good neighbor!
